

BRING YOUR OWN TECHNOLOGY

Device Checklist

WIRELESS CONNECTIVITY

Wireless connectivity is a vital feature for BYO technology items in schools. Your device should support 2.4GHz and/or 5GHz band wireless.

OPERATING SYSTEM - For best compatibility with the software that you will be using at college, we recommend the current or previous generation of any desktop OS (e.g. Windows, MacOS), and the current or two previous generations of any mobile OS (e.g. Android, iPadOS).

CAMERA & MICROPHONE

These are necessary to ensure students can participate in modern learning activities. A stylus or keyboard may also be useful.

WEIGHT

Your device should be portable enough to carry between your classes each day.

EXTRAS

Case: A carry case or protective sleeve is important for protecting the device.

Insurance: devices can be lost or broken at college. Consider insuring your device against these eventualities.

Warranty: Consider purchasing extra warranty to reduce future repair costs, as these devices will be used extensively.

STORAGE AND RAM

120GB Storage
4GB RAM

To store and process data effectively, these minimum specifications are recommended.

DURABILITY

A tough and sturdy build, and strong keys and connections are recommended.

BATTERY LIFE

Minimum 5 hours
